

Customer Reviews:

"Mailman's Carpet Cleaning did an excellent job getting red wine out of my white couch. When they were done it looked good as new and the Scotchgard treatment they recommended was a tremendous help in keeping further staining from happening in between cleanings!"

Bryan from Templeton

"We've had Tom and Matt from Mailman's come in a couple of times a year for more than a decade to clean our beige carpet in the kitchen. It's the main entry into the house and gets a lot of traffic. They have always been excellent and very concerned about getting it right. Once we had a particularly difficult grease stain that didn't come out fully the first time - so they swung back and gave it a second blast so that it was 100% gone. They're good people...and very qualified!"

Scott B. from Ashburnham listed on yelp.com

"Mailman's Carpet Cleaning. Someone had left an office in Grafton, MA a nasty mess. The rug looked totally ruined. It was not only filthy dirty but had such gross and long term stains on it that replacing the rug seemed the only course to take. I decided, since it was a good rug, to give it a chance and asked a friend about a rug cleaner. He gave me the name Mailman Rug Cleaning in Templeton, MA. WOW!!! They did a fabulous job, couldn't have be nicer and were very reasonable. That's why I give them the full 5 stars!"
Cate Lund from Grafton on Citysearch.com

"Nice work good price. This is a quality cleaning company that will get the job done quick and well and at a very fair price. I would recommend using this cleaning company!" John S. On insiderpages.com

About Us:

A family owned and operated cleaning business in Central Massachusetts since 1970. Mailman's offers professional cleaning and courteous service of wall to wall carpet, in home or in plant cleaning of oriental and area rugs, upholstery and tile and grout cleaning. Mailman's has been dedicated to giving outstanding customer service and incredible results for 40 years.

Commercial Services

We offer a case by case review of needed service and regular interval cleaning for all our commercial clients. We try to make our cleaning schedule specific to your needs and offer monthly, quarterly, bi-annually, annually or any specific schedule your business may need. We also offer weekend, early morning, or off hour appointments.

Carpet Cleaning:

Professional Certified Steam cleaning with truck mounted equipment. Our technicians inspect each carpet and pretreat heavily soiled areas with a special blend of detergents and surfactants that has been perfected over the years. Our steam cleaning equipment produces heat of over 240 degrees and has a very powerful vacuum to remove moisture and leave carpets as dry as possible. Any spots not removed with cleaning are treated with high quality spotters to ensure your carpets are left sparkling clean,

Oriental & Area Rug Cleaning:

We offer in home or in plant cleaning for your area rugs. When fibers become soiled, premature wear, allergies, may occur. With daily traffic, soils act like sand paper grinding into these delicate fibers. Your specialty rugs should be professionally cleaned every 1-3 years. In plant cleaning involves dusting and vacuuming to remove all particulates. Rugs are then washed, rinsed, wrung, and then hung to dry. We offer exposed area cleaning or complete wall to wall cleaning including moving and replacing furniture on protective tabs. Our technicians use the utmost care with your furniture and belongings.

Upholstery Cleaning:

All upholstery is inspected and qualified for cleaning by our knowledgeable certified master cleaners. Your furniture is pretreated with a specialized fine fabric pre-spray and cleaned with Hydra Dri tool. The Hydra Dri tool is the newest most technologically advanced tool on the market leaving your upholstery cleaner and drier than ever before.

Scotchgard:

We offer a high quality Scotchgard protector for your upholstery and carpet. Our technicians are trained in proper application techniques. Protector is a very beneficial product to ensure your carpets and upholstery stay looking fresh and clean as long as possible. The Scotchgard treatment puts a barrier down to allow you more time to clean spots and spills. Scotchgard also allows your vacuum to be more effective at removing dry particulate soil.

Tile & Grout / Natural Stone:

Our highly skilled cleaning technicians inspect the tile and grout lines prior to cleaning. All the surfaces to be cleaned are pretreated with a blend of cleaners designed especially for these surfaces. The grout lines are all hand scrubbed and then the entire floor is washed with high pressure cleaning tool. The soil and water is vacuumed out with the tile tool leaving your tile looking beautiful.

Office Partition (cubicle) Cleaning:

We can spot clean or fully clean any and all fabric partitions your office may have. The partitions are inspected, pretreated and then cleaned using the Hydra Dri tool. Sure to keep your office looking neat and professional. Regular cleaning may extend the life and look of your office partitions.

We offer flexible and convenient payment options for our commercial clients. Please call our office for further details on pricing or with any questions.
